SUMMARY

Information Systems student with foundational experience in Python, SQL, database design, data analysis, and system troubleshooting. Experienced in academic projects involving relational databases, programming, APIs, and Raspberry Pi. Seeking an internship in Information Systems, data analytics, business intelligence, IT, or software development.

EDUCATION

Houston Christian University
Houston, Texas

Expected Graduation: **May 2028**

Bachelor of Science in Information Systems

TECHNICAL & PROFESSIONAL SKILLS

Programming: Python, PHP, SQL, Arduino

Database: MySQL, Relational Database Design, ER Diagrams, Data Modeling

Data & Analytics: Microsoft Excel, Data Modeling, Goal Seek, Advanced Formulas

Systems & Hardware: Raspberry Pi, Linux, Ubuntu, Kali Linux, Virtual Environments, Network Utilities

Professional: Problem Solving, Technical Documentation, Process Optimization, Team Collaboration

ACADEMIC PROJECTS

Delta University Student Registration System

COSC 2355: Database Management Systems, Houston Christian University

- Collaborated with a team to design a relational MySQL database and ER diagram representing students, courses, course sections, faculty, enrollments, and prerequisite relationships.
- Developed a PHP web interface that allows users to interact with and retrieve information from the MySQL student registration database.
- Converted ER diagrams into normalized relational tables using primary keys, foreign keys, and entity relationships.

TAJ REFLECTS Smart Mirror

COSC 1352: Intermediate Computer Programming | Python, Raspberry Pi 4, Speech Recognition

- Developed an interactive smart mirror using Raspberry Pi 4 and Python to display real-time information through a custom visual interface.
 - Implemented offline speech recognition to support voice-activated commands and system controls.
 - Integrated PIR motion sensors, addressable LED lighting, and API-based features to automate system responses.
-

VOLUNTEER EXPERIENCE

Concession Stand Volunteer – Project Grad, Houston, Texas

December 2023 – January 2024

- Designed promotional signage that increased customer traffic by 50%.
- Managed customer orders, cash transactions, inventory restocking, and register balancing.
- Collaborated with volunteers to maintain efficient operations during high-volume events.
